APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the place of use of the waters of an underground source as heretofore granted under Proof of Appropriation 04645 is issued subject to the terms and conditions imposed in said Proof of Appropriation 04645 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under Permits 55852-T and 55853-T shall not exceed 10 acre-feet annually.

This temporary permit is limited to the period July 16, 1991 through December 31, 1991. This permit is issued pursuant to NRS 534.345 and the terms of a fax letter dated July 9, 1991 from George N. Benesch, Esq. filed herein. The approval of this permit shall not infer any validity or be otherwise prejudiced to the proof of appropriation of which the limit and extent must be determined under the provisions of NRS 533.090-533.320.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second, but not to exceed 5 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before _____
